

Position Title: Freelance Graphic Designer

Organization Name: iMobileApp (a product of Sparta Commercial Services, Inc.)

Wage/Salary: TBD

Start Date: ASAP

Job Description: Our company provides mobile apps for small businesses to augment in-place marketing strategies. We are looking for a designer to build the images within the apps, usually by taking the client's existing logo and building around. We will provide specific sizing for images. The creative will be part direction from us, and part reliance on the designer. Usually about 30 images in all. Once the initial set is created, it can be used as a size template.

To get an idea of the images needed, you can download one of our apps here:

About Us: iMobileApp is a leader in mobile marketing applications for small and growing businesses. Our platform works on most mobile devices and allows businesses to have a mobile app at a fraction of the cost of single-build applications. Our customizable applications are already very popular within the powersports industry and we are further targeting restaurants, liquor stores, grocery stores, and agriculture dealers, allowing them to engage and communicate with their customers, and potential customers, in ways that were never before possible.
